BRAINARD'S Popular Lawn Grass Seed Mixtures

Quantity To Use

The following quantities will be practical on most lawn mixtures. For new lawns, use 1 lb. to 250 sq. ft., 4 lbs. to 1000 sq. ft. For replenishing old lawns we recommend about one-third to one-half this quantity of seed.

Brainard's Rex Mixture

This is our very best mixture for general use and is actually a blend of a number of high grade grasses most suitable to withstand the close cutting, extremes of weather and other adverse conditions ordinary lawns have to endure. This mixture will positively, under favorable conditions produce a permanent, fine texture lawn. 1 lb. 59c, 2 lbs. \$1.16, 3 lbs. \$1.65, 5 lbs. \$2.60, 10 lbs. \$5.00, 15 lbs. \$7.20, 25 lbs. \$11.50, 50 lbs. \$22.00, 100 lbs. \$44.00.

Brainard's Verigood Mixture

This is a mixture of good, serviceable lawn grasses, and while not quite equal in velvety texture to our Rex Mixture, is less expensive and answers well where a high quality, fine bladed grass is not really necessary. 1 lb. 44c, 2 lbs. 84c, 3 lbs. \$1.20, 5 lbs. \$1.90, 10 lbs. \$3.60, 15 lbs. \$5.25, 25 lbs. \$8.50, 50 lbs. \$16.25, 100 lbs. \$32.50.

Brainard's Shady Corner

This mixture is composed of dwarf growing, strong rooting grasses which thrive more or less in sheltered or shaded locations, and will make a quick showing though gradually build a strong green turf. 1 lb. 56c, 2 lbs. \$1.10, 3 lbs. \$1.56, 5 lbs. \$2.50, 10 lbs. \$4.75, 15 lbs. \$6.75, 25 lbs. \$10.75, 50 lbs. \$20.75, 100 lbs. \$41.50.

PEAT MOSS

Horticultural Grade—Nature's Mulch and Soil Builder

A thoroughly decayed, natural material contributing to the formation of humus, and valuable for all types of soils. Used in sandy soils to add fiber and make more moisture retaining properties, and in heavy or clayey soils its action is to make a more friable and better drainage condition. By the retaining of proper moisture content in the soil, the fertilizers are more promptly available and retained so that roots can feed on it as needed. Peat Moss is also a wonderful preventative of soil leaching.

Peat Moss is an especially useful material in the preparation of soil for all broadleaved evergreens, such as Laurel, Rhododendrons, Azaleas, and many others, and liberal quantities of it should be thoroughly worked into the soil before planting.

Newly planted trees, shrubs, and especially evergreens of all types, are very much benefited by a liberal mulch of Peat Moss, and each Spring the last year's mulch should be worked into the soil and a new mulch applied. It is also of value as a mulch for perennial beds, Rose beds, etc.

Peck 20c, ½ bu. 30c, 2 bu. carton 95c, 2 cartons \$1.85, ½ bale \$2.40, full bale of approximately 12 bu. \$4.40, 5 bales at \$4.25 per bale.
